

Free Web based Training

Florida Medical Sales offers FREE web based training for your medical devices. Our goal is to ensure that all your staff is comfortable using your new device. Using your new device has never been easier to get started.

Using GoToMeeting, online trainings can be scheduled at your convenience and have as many staff members attend as you wish.

Once the appointment has been scheduled, attending the training is EASY. FMS will email you an invitation to join the meeting, follow the link, and we can start the Training. All you need is an internet connection, PC and a phone.

We understand that unexpected events come up; we can reschedule the appointment with no penalties and no worries.

During the training, you can ask questions as if someone was in the room with you. Again, we want you to be completely comfortable with your new device.

For more information call (888) 269-1810 or email admin@floridamedicalsales.com
