

## Material Safety Data Sheet Response

Trade Names: Arm-Guard, Cuff-Guard, Arm-Cover, and Tourniquet Cover

February 8<sup>th</sup>, 2021

To Whom It May Concern:

We have reviewed your request for Material Safety Data Sheets (MSDS). We have evaluated our products (Arm-Guard, Cuff-Guard, Arm-Cover, and Tourniquet Cover) and deem them to be "articles" as defined by OSHA, 29 CFR 1910.1200, Section (c). As such, these articles do not release or otherwise result in exposure to hazardous chemicals under the conditions of intended use. Under section (b), subsection (5), the Hazardous Communication Standard does not apply to articles, and thus the issuance of an MSDS is not required.

To be considered a hazardous substance (and therefore require an MSDS), a product must have shown statistically significant evidence, based on at least one study conducted in accordance with established scientific principles, that acute or chronic health effects may occur in employees exposed to the substance, and/or present a significant physical hazard.

### Ingredients:

Part	Material	C.A.S. NO.	Percent
Tyvek	DuPont™ Tyvek® Spunbond Polyethylene	N/A	N/A
